

# Task Team on Scanner Data

## Our aim

To increase the use of scanner data in official statistics...

- through lowering the barriers of entry for countries by providing a library of methods, guidance and training...
- via the sharing of experience, practice and learning between countries on the use of scanner data...
- and through supporting Public-Private collaboration in the acquisition and use of scanner data.

## Phase 1: Scanner data for consumer price statistics

### Work so far...

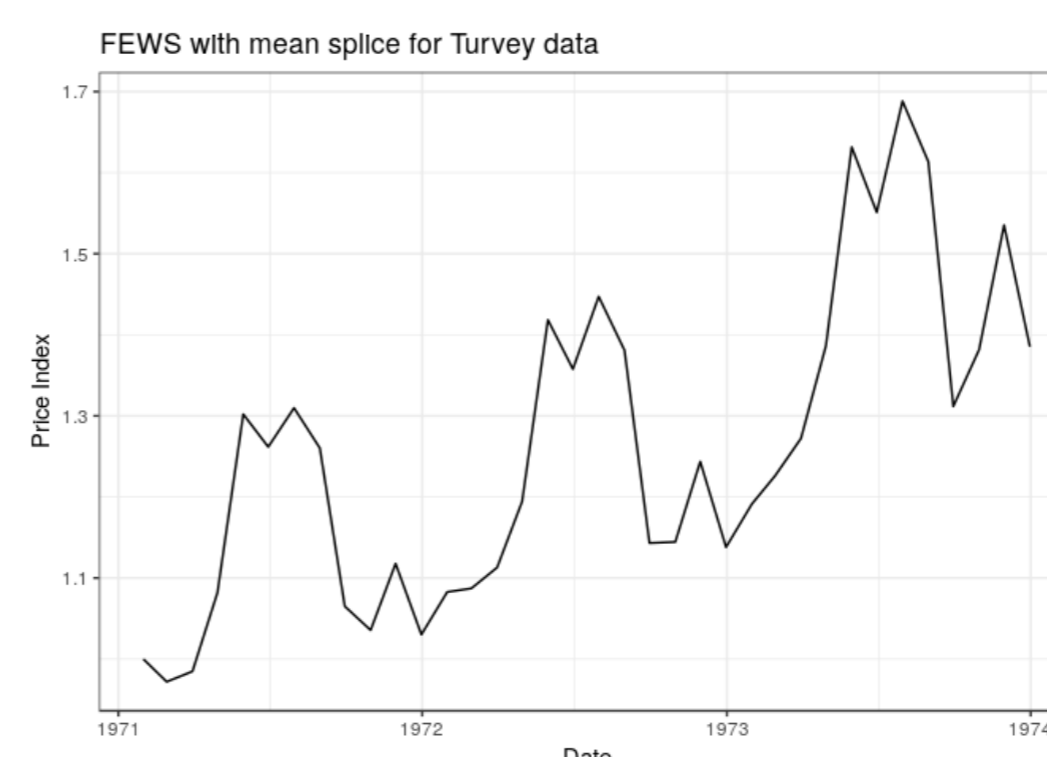

#### 1 Methodological guide

- Summarise existing literature
- Share good practice
- Country specific case studies

#### 2 UN Global Platform tool

- Analysis and index methods applied to historic scanner data
- Sharable code and documentation for each method

#### 3 Training & instructional material

- International, expert-led, workshops
- Training material for using UNGP tool

## We need you!

- Sign up for an account on the UN Global Platform
- Test the FEWS code
- Add new index methods!
- Provide feedback on methodological guide and instructional material
